

# Sound Absorption: Megasorber P

## Acoustic Polyester Panel with Fireproof Sound Absorbing Facing

Product Codes: Megasorber P25, Megasorber P50 and Megasorber P100

Megasorber P with Black, White, Sandstone and Grey G8 facing

### KEY FEATURES

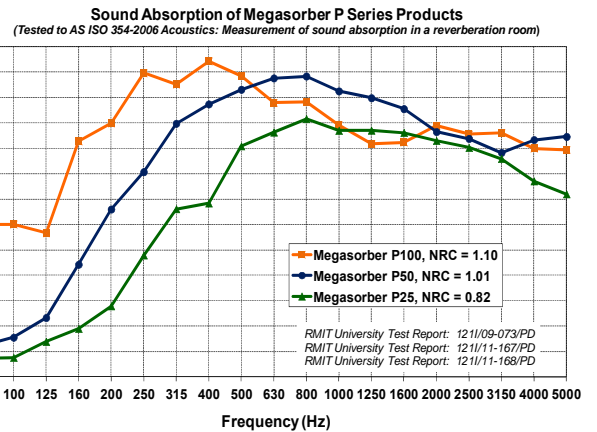

- Superior sound absorption utilizing patented technology (U.S. Patent No. 8167085, Canadian Patent 2674986, Australian Patent No. 200926197)
- Non-combustible facing with BS476 Part 4 Non-combustible classification, BCA Group 1 fire classification (AS/NZS 3837) and ISO 5660 Group 1 fire classification;
- BCA Group 2 Classification with Average Specific Extinction Area less than 250 m<sup>2</sup> /kg.
- Tough, durable and water repellent facing (non-water repellent version is also available);
- Environmentally friendly with 100% recyclable acoustic polyester wool;
- Long service life, i.e., will not deteriorate when exposed to hot and humid conditions;

### KEY BENEFITS

- Reduce potential fire hazards with fireproof facing;
- Suitable for all buildings under BCA fire requirements;
- Maximum noise reduction;
- Non-hazardous, safe to handle;
- Resists liquids, dusts and fluid splashes or sprays;

### TYPICAL APPLICATIONS

- Reverberation or echo noise reduction for
- Commercial and office buildings, call centres, school halls;
  - Restaurants, bars and clubs;
  - Music rooms, recording studios, home theatres;
  - Sport stadiums, multipurpose halls, school halls;
  - Aquatic Centres and so on.
