

# Air Conditioner Soundproofing

**AC too noisy...does it meet the legal limits** 😞

**Non-obtrusive noise reduction materials installed inside the unit, using quality high performance Australian made soundproofing materials.**

## Internal Noise Reduction

**Soundlag** – wrap around the compressors to absorb and reduce the lower frequencies by up to 26dB. Fasten with foil tape so it can also be easily removed. 1000 x 675 x 25mm foil faced, cut with scissors + 5m re-enforced tape

**Sorberdamp** - vibration dampening of sheet metal, noise reduction and absorption.  
Apply internally on access panels or where there is adequate space and where air flow will not be affected.  
1300 x 1000 x 25mm AGC faced self-adhesive sheet and cut with a knife

**Decidamp** - damps sheet metal and removes the energy; the vibration and resonating are then diminished.  
Apply on any panels internally / externally where space or access is an issue.  
1300 x 1000 x 1.3mm foil faced self-adhesive sheet and cut with scissors.

**Do it once, do it right.**

# Air Conditioner Soundproofing

**AC too noisy...does it meet the legal limits** 😞

## External Noise Reduction

**Decidamp** - damps sheet metal and removes the energy; the vibration and resonating are then diminished.

Apply on the fence and can be painted.

1300 x 1000 x 1.3mm foil faced self-adhesive sheet and can be cut with scissors.

**Stratocell Whisper** – a rigid lightweight acoustic sheet which can be fastened to fence or house for absorption of NRC 1.0 and reduce by 13dB to the neighbours.

2400 x 1200 x 50mm sheet size which is easy to cut with a Stanley knife

## **Recommended starting pack with delivery available Australia wide**

1 x Soundlag sheet 1000 x 675 x 25mm + 5m tape

1 x Sorberdamp sheet 1300 x 1000 x 25mm

1 x Decidamp sheet 1300 x 1000 x 1.3mm

**Do it once, do it right.**
